Templeton Religion Trust and The Blankemeyer Foundation have awarded SCIO, the UK Centre of the Council for Christian Colleges and Universities (CCCU), a grant of ca. $2 million to create summer seminars in science and religion in Oxford and enhance activities on CCCU-related campuses.

Science and religion are often presupposed to be antagonists, and debates in the field are often bad-tempered and reliant on caricature. Part of the problem stems from the cultural differences that exist between the humanities and the sciences, differences which make cross-disciplinary discourse and collaboration in science and religion problematic. These differences are amongst the issues to be addressed in the Oxford-led funded seminar programme, which will comprise:

- summer research seminars for faculty in Oxford, UK
- research and student-focused activities on CCCU campuses
- special seminars for institutional leaders on relevant issues

These components will see social and natural scientists join those in the humanities to explore contemporary science and religion issues guided by eminent scholars in the field and in a respectful and research-rich learning environment.

Campus programmes will develop young scholars, support conversations across the wider student body, and help campus leaders engage with current issues in science and religion. These complementary project elements will shape participants and their institutions for years to come.

Key Features of the Project

- for CCCU members and affiliates, though consideration given to applications from other faith-based universities, especially from Latin America and Africa
- two month-long seminars in summer 2018 and summer 2019, for which each participant will receive a £1,750 stipend each summer, will include
  - significant time for research and access to Bodleian Libraries
  - lectures by eminent scholars in science and religion
  - mentor sessions with participants and senior scholars
  - one-on-one cross-disciplinary Oxford-style supervisions
  - workshops on rhetorical, pedagogical, translational, and faith-based science and religion issues on CCCU campuses
  - excursions to places such as Darwin’s house and relevant collections in Cambridge
  - cultural activities relevant to addressing the ‘two cultures’ challenge between science and religion
  - a touring play made available to participating North American campuses
  - support for individual research projects
  - two course releases for participants, for the sake of research, partially paid by the project
  - substantial funding to establish (or bolster) science and religion student clubs on participants’ home campuses
  - funding towards student research assistants studying science and religion on one of SCIO’s student programmes
  - a three-day presidents’ roundtable in Oxford on science and religion issues with institutional leaders from participants’ campuses
  - spring 2019 weekend colloquium in North America for the participants along with their chief academic officers, chief student development officers, and chaplains
  - book allowance for institutions from Africa and Latin America

Staff / Principal Investigators

Academic Director
- Alister McGrath, Andreas Idreos Professor of Science and Religion and Director of the Ian Ramsey Centre, University of Oxford

Project Director
- Stanley P. Rosenberg, Executive Director, SCIO; Faculty member of Wycliffe Hall, Faculty of Theology and Religion, University of Oxford

Project Co-Director
- Michael Burdett, Director of Studies in Science and Religion, SCIO; Faculty member of Wycliffe Hall, Faculty of Theology and Religion, University of Oxford

Senior Consultant
- John Roche, Senior Lecturer in History of Science, SCIO; Fellow of Harris Manchester College and member of Faculty of History, University of Oxford

CCCU Executive Liaison Officer
- Rick Ostrander, Vice President for Academic Affairs and Professional Programs

Advisory Board

UK
- Professor John Hedley Brooke, Andreas Idreos Professor Emeritus of Science and Religion, University of Oxford
- Professor Ard Louis, Professor of Theoretical Physics, University of Oxford
- Revd Dr Michael Lloyd, Principal, Wycliffe Hall, University of Oxford
- Dr Andrew Pinsent, Research Director, Ian Ramsey Centre, University of Oxford
- Dr Ignacio Silva, Research Fellow, Ian Ramsey Centre, University of Oxford
- Revd Professor Graham Ward, Regius Professor of Divinity, University of Oxford
- Professor Johannes Zachhuber, Professor of Historical and Systematic Theology, University of Oxford

USA
- Dr Claudia Beversluis, Professor of Psychology, Calvin College
- Dr Dorothy Chappell, Dean of Natural and Social Sciences and Professor of Biology, Wheaton College
- Dr Mark Sargent, Provost and Dean of Faculty, Westmont College

SCIO is the UK centre of the Council for Christian Colleges & Universities and works in partnership with Wycliffe Hall, Oxford. SCIO advances the scholarly development and opportunities of academic leaders in North America and throughout the world.

SCIO’s student programmes — Scholars’ Semester in Oxford and Oxford Summer Programme — and research projects funded by major grant awarding bodies, enable faculty, postdoctoral fellows, and students to engage in scholarly enquiry. Find out more at www.scio-uk.org

Application details

- Application materials will be published 1 April, 2017
- Application deadline 15 September, 2017
